

### **Meeting Notes:**

- Time: Tuesday 1:00 PM - 1:45 PM
- Assigned duties to creating Leaderboard page
  - Connecting database to pages so when users score changes, leaderboard is updated accordingly
- Went over different pull requests we had and merged them into main after reviewing them
  - Merged in logic for slots, blackjack
  - Created simple profile page that can be updated/improved later on
    - Displays username and other information about the user
- Finished making tests pass for lab 10
  - Also made sure users handling, like user authentication, works so only registered users with the correct credentials can log in
- Discussed finishing up the User Acceptance Testing for lab 10, and the different cases we need to finish
- Talked about how we can get everything connected and how to eventually merge in all branches
- Decided to meet up in class on Thursday to talk with Bhargav on how to connect the back end/utilize it to connect the database and making sure it updates correctly when games are won/lost
